Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4, 7, 8, 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Maruoka.

Note cowl 11, mounting surfaces in figures 10-11 and elongated upper holes 17 and lower holes 16, figure 4.

See spacers 18 and 10, respectively, claims 4 and 11.

As to claim 7, both cowl and windshield are curved rearwardly.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out

Art Unit: 3612

the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 2-3, 9-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over of Maruoka in view of Armstrong

“Integrally formed” is not limited to --one piece--, but conveys --attached-- per dictionary definitions.

It would have been obvious to one of ordinary skill to provide in each of the references above bosses 60,62 as taught by Armstrong in order to protect the windshield from damage.

6. Claims 5, 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over any one of Maruoka in view of Armstrong as applied to claims 2 and 9 above, and further in view of Vezza.

It would have been obvious to one of ordinary skill to provide in the referenced combination above spacers 9 as taught by Vezza in order to space the windshield from its mounting structure in order to reduce frictional damage, for example.

Allowable Subject Matter

7. Claims 6, 13-15 are allowed.

Response to Arguments

8. Applicant's arguments filed 11/12/2004 have been fully considered but they are not persuasive.

The drawings of 8/25/2003 are acceptable.

Art Unit: 3612

Applicant's amendment of claim 7 necessitated the new rejection thereof as details of this claim which needed allowable claim 6 for dependency have been deleted.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Vetter Fairing Co. is cited to show vertically aligned holes in both fairing and cowl.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
